## SUMMARY

Versatile and solutions-driven professional with a multidisciplinary background in administration, customer experience, creative design, and full stack web development. I specialize in optimizing workflows, elevating digital experiences, and supporting business growth through strategic execution and user-centered solutions.

Currently serving as an Executive Assistant within a business conglomerate, I manage operations, client relationships, and digital presence while also offering freelance services in brand identity, UI/UX design, and content creation.

I'm actively expanding my technical skillset in software engineering and AI, building on my full stack training (HTML, CSS, JavaScript, Python) through hands-on projects. Passionate about technology, clarity, and practical design, I thrive in dynamic environments where creativity meets systems thinking.
